Alphabetical List Revised to February 1, 1950

Simplified Practice means reduction of excessive variety of manufactured products, or of methods. Simplified Practice Recommendations are records of stock items retained after superfluous variety has been eliminated. These recommendations are developed by voluntary cooperation among manufacturers, distributors, consumers, and other interests, upon the initiative of any of these groups, through a regular procedure of the National Bureau of Standards established for that purpose.¹

With certain exceptions² current recommendations are available in printed form for 5 cents per copy, unless otherwise indicated. Prices apply as of the date of this Letter Circular and are subject to change when recommendation is reprinted. When ordering give number and title of the publication, as, for example, "R133-49, Surgical Dressings."

A discount of 25 percent will be allowed on orders for 100 or more copies of one title.

Domestic Orders for publications should be addressed to the Superintendent of Documents, Government Printing Office, Washington 25, D. C., and accompanied by coupons (obtainable from the Superintendent of Documents, in sets of 20 for \$1.00 and good until used), or by check or money order payable to the "Superintendent of Documents." Remittance is required in advance of shipments. The prices in this list are for publications which are to be delivered to addresses in the United States and its possessions, and to countries extending the franking privilege.

Orders from other countries should identify the desired publications by number and title, and should be accompanied by remittances which include one-third of the total cost of the specified publications, to cover postage. Remittances should be made payable to the "Superintendent of Documents," and mailed with order to that officer at the Government Printing Office, Washington 25, D. C., U.S.A.

¹The procedure is explained in detail in Simplified Practice, Its Purpose and Application, Letter Circular LC590, April 15, 1940, National Bureau of Standards.

²Numbers indicated by an asterisk (*) are available, at present, only in mimeographed form. They can be obtained, free of charge, from the Commodity Standards Division, National Bureau of Standards, Washington 25, D. C.

Commercial Standards establish standard quality requirements, methods of test, rating, certification, and labeling of commodities, and provide uniform bases for fair competition. They are developed by voluntary cooperation among manufacturers, distributors, consumers, and other interests, upon the initiative of any of these groups, through a regular procedure of the National Bureau of Standards established for that purpose. The procedure is explained in detail in a pamphlet entitled "Voluntary Standards Adopted by the Trade," obtainable free of charge from the Commodity Standards Division, National Bureau of Standards, Washington 25, D. C.

Commercial Standards for Exports. A list of Commercial Standards (TS-4748) established in cooperation with interested exporters for the promotion of foreign trade, and printed in English and other languages, is available on request.

Copies of effective Commercial Standards may be consulted in public and college libraries, and may be purchased from the Superintendent of Documents. A list of these standards will be mailed on request sent to the Commodity Standards Division, National Bureau of Standards.

Technical News Bulletin. An excellent means for keeping informed of new Commercial Standards and Simplified Practice Recommendations as issued, and of revisions of these publications, is by subscribing to the Technical News Bulletin of the National Bureau of Standards. This illustrated periodical is published monthly, and presents concise articles summarizing recent developments and research completed at the NBS. Announcements of new standard samples, technical services, and changes in values of scientific constants, with a list of all NBS publications issued during the preceding month, are included. The subscription price is \$1.00 a year in the United States, Canada, Cuba, Mexico, Newfoundland, and Republic of Panama; in other countries, \$1.35. Single copies may be purchased for 10 cents each. Orders should be sent with remittance to the Superintendent of Documents, Government Printing Office, Washington 25, D. C.
